

LIVINGPACKETS®

Share our passion and join us on our mission

LivingPackets reinvented packaging with THE BOX - our smart and sustainable intelligent packaging solution. THE BOX enables fantastic new connected services in the areas of e-commerce, deliveries, logistics, packaging and payment. It can be used at least a thousand times before it needs refurbishment. Together, we can save trees, which end up as

cardboard-packaging in the garbage and protect the oceans from one-way plastic used as filling materials. To bring our vision of a fair and sustainable economy and the idea of packaging-as-a-service to life, we search for hands-on doers and bright-minded thinkers to join us in our adventure.

Recruiting Specialist

Full-Time, Berlin, Onsite

What we offer

- › A highly dynamic and international workplace environment with inspiring designers, engineers, and mentors.
- › Insight into the world of eCommerce and logistics by discovering new tools and technologies that will help you improve your skills daily.
- › Access to the latest and blockchain and sensory technology.
- › An opportunity to grow and create a product that people will love to use.

What you'll do

- › Be responsible for recruiting employees throughout Europe, especially Berlin and Nantes
- › Manage and improve our recruiting process by establishing high quality talent management and scouting skills
- › Work closely with C-Level to help improve LivingPackets through personnel management
- › Work closely with team leads to understand teams and their cultures, as well as identify their needs
- › Develop and supervise semi-structured interviews and job specific tests with team leads

Essential Criteria

- › You have a proven track record as a recruiter, preferably within startup environments
- › You are an expert in both class and talent recruiting
- › You have a holistic view on the recruiting process, the product, and the company
- › You are enthusiastic about sharing LivingPackets unique story and product
- › You think outside the box by developing creative and effective recruitment strategies

Desirable Criteria

- › Knowledge about the IT sector, marketing, and/or manufacturing processes
- › You are willing to travel (especially to and from Nantes/Berlin)
- › You are fluent in and/or have skills English, German, and/or French
